ANNEXURE TO THE NOTICE

EXPLANATORY STATEMENT TO BE ANNEXED TO THE NOTICE PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Item No. 3: Alteration of the Object Clause in the Memorandum of Association of the Company.

The management wants to diversify the company's business. The company proposes to undertake the activity of chemical and chemical products, ayurveda and allopathy products and medicines, information technology software and hardware products.

To enable the Company to commence the aforesaid business, it is proposed to amend the Main Objects under the Objects Clause of the Memorandum of Association of the Company, by the insertion of clause 3 after the existing clause 2 as stated in the Resolution in the annexed notice. The above amendment would be subject to the approval of the Registrar of Companies, Delhi and Haryana and any other Statutory or Regulatory Authority, as may be necessary.

A copy of the Memorandum and Articles of Association of the Company together with the proposed alterations is available for inspection by the Members of the Company at its Registered Office during normal business hours on all working days upto the date of the Meeting.

None of the other Directors of the Company or the Key Managerial Persons of the Company or their respective relatives, are concerned or interested in the passing of the above Resolution.

Item No. 4: To Appoint Mr. Sahil Minhaj Khan as Managing Director of the Company:

Mr. Sahil Minhaj Khan had been appointed as Managing Director of the Company on 08.05.2018 for a period of 5 years. The present proposal is to seek the Shareholders' approval for the appointment of Mr. Sahil Minhaj Khan as the Managing Director in terms of the applicable provisions of the Companies Act, 2013. The Board of Directors of the Company (the 'Board'), at its meeting held on 08.05.2018 has, subject to the approval of the Shareholders, appointed Mr. Sahil Minhaj Khan for a further period of 5 years from the date of appointment.

The payment of remuneration has already been approved by the Nomination & Remuneration Committee in its meeting held on 08.05.2018 & subsequently by the Board of Directors in its Board Meeting held on the same date. Therefore the Board proposes to seek approval of the Shareholders of the Company, approving the payment of remuneration for a maximum of Rs. 50,000/- per month to Mr. Sahil Minhaj Khan as detailed here under:

Salary: For such amount as may be decided by the Board of Directors up to a maximum of Rs. 45,000 per month.

Perquisites and Allowances: a) For such amount as may be decided by the Board of Directors up to a maximum of Rs. 5,000 per month (which shall include HRA, Special Allowance & conveyance and reimbursement of Medical Expenses per month as per the rules and policy of the Company from time to time.)

b) Contribution to Provident fund, Superannuation fund and payment of gratuity as per the rules of the Company.

The Board recommends the Resolution as mentioned in the Notice for your approval.

Industry overview:

The bullion reserve of a country is the indicator of the amount of wealth a country possesses. Bullion is defined as a bulk quantity of precious metals consisting of gold, silver and other that can be assessed by weight and cast as a lump. Bullion is valued by its purity and mass rather than its face value which is applicable in the case of money. India bullion market is a recognisable index that highlights the economic growth of the nation.

As historical perspective is useful in understanding why India has been for so long, and still is, a great market for gold – and also for silver. India, the saying goes has always been a sink for precious metals. Both metals are closely woven into the social fabric, especially in the rural areas where they are the basic form of saving.

Our company also expecting that the overall industry outlook will improve in the future and the Company will also be benefited for the same.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under and the Order issued under section 143(11) of the Act.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its loss, total comprehensive income, the changes in equity and its cash flows for the year ended on that date.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Jyotirgamy Enterprises Limited** (“the Company”) as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

ARUN K AGRAWAL & ASSOCIATES

E-mail : arunagarwal_ca@rediffmail.com

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1) Nature of operations

Jyotirgamy Enterprises Limited being a company incorporated under the provisions of the Companies Act, 1956, on 25th day of September, 1986 having its registered office at Office No. 3 , IInd Floor, P 37/38, Gomti Complex, Pandav Nagar, Mayur Vihar, Phase – I, New Delhi – 110091.

The company is carrying on the business of Trading of Goldsmiths, Silversmiths and Fabric Items.

2) Application of new and revised Ind ASs

On 16 February 2015, the Ministry of Corporate Affairs (“MCA”) notified the Companies (Indian Accounting Standards) Rules, 2015. The rules specify the Indian Accounting Standards (Ind AS) applicable to certain class of companies and set out dates of applicability. Ind AS is applicable from April 1, 2016 as defined in the said notification, is required to apply the standards as specified in Companies (Indian Accounting Standards) Rules 2015 and accordingly the Company has adopted Ind AS from April 1, 2017 with transition date as April 1, 2016.

3) Significant accounting policies

3.1 Statement of Compliance

The financial statements have been prepared in accordance with Ind ASs notified under the companies (Indian Accounting Standards) Rules, 2015.

Upto the year ended March 31, 2017, the Company prepared its financial statements in accordance with the requirements of previous GAAP, which includes Standards notified under the Companies (Accounting Standards) Rules, 2006. These are the Company first Ind AS financial statements. The date of transition to Ind AS is April 1, 2016. Refer Note 4 for the details of first-time adoption exemptions availed by the Company.

3.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period.

Historical Cost is generally based on the fair value of the consideration given in exchange of goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company taken into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

3.3 Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for returns, trade allowances for deduction, rebate, value added taxes and amounts collected on behalf of third parties.

The Company assessed its revenue arrangements against specific criteria to determine it is acting as principal or agent. The Company has concluded that it is acting as a principal in all its revenue arrangements.

Operating Income

Operating income is recognized as and when the services are rendered or when goods are sold. The Company collects the applicable tax on behalf of the government and, therefore, that are not economic benefits flowing to the Company. Hence, they are excluded from revenue.

Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend income

Dividend income from investments is recognized when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably). However, during the year the company is not in receipt of any dividend income.

3.4 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

3.5 Employee benefits

Provident Fund (PF) and ESI are not applicable to the Company as the number of employees is lesser as compared to the minimum number of employee for the applicability of the PF and ESI Acts to the company.

The company has no compensated absences outstanding (Paid Annual Leave), which are liable to payment, at the end of the year. Hence no provision for the same has been made.

3.6 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

i) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates.

ii) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognized if the temporary difference arises from the initial recognition of goodwill.

In the case of unused tax losses probability is evaluated considering factors like existence of sufficient taxable temporary differences, convincing other evidence that sufficient taxable profit will be available. At the end of each reporting period, the company reassess unrecognized deferred tax assets and, the company recognizes a previously unrecognized Deferred Tax Asset to the extent that it has become probable that future taxable profit will allow the Deferred Tax Asset to be recovered.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable company and the same taxation authority.

iii) Current and deferred tax for the year

Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

3.7 Property, plant and equipment(PPE)

For transition to Ind AS, The Company has elected to continue with the carrying value of all of its PPE recognized as of April 1, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

PPE held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold Land is not depreciated.

PPE are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

Components of costs

The cost of an asset includes the purchase cost including import duties and non-refundable taxes, borrowing costs if capitalization criteria are met and any directly attributable costs of bringing an asset to the location and condition of its intended use.

Subsequent expenditure related to an item of PPE is added to its carrying value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance.

JYOTIRGAMYA ENTERPRISES LIMITED
NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

All other expenditure related to existing assets including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss in the period during which such expenditure is incurred.

The carrying amount of a PPE is de-recognized upon disposal of PPE or when no future economic benefits are expected from its use. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the statement of profit and loss.

Depreciation commences when the assets are ready for their intended use. Depreciation on all PPE except land are provided on a straight line method based on the estimated useful life of PPE, which is follows:

PPE	Useful Lives
Vehicles	8 Years
Computers	6 years
Furniture and fittings	10 years

The useful life of PPE are reviewed at the end of each reporting period if the expected useful life of the asset changes significantly from previous estimates, the effect of such change in estimates are accounted for prospectively.

3.8 Impairment of tangible asset

At the end of each reporting period, the company reviews the carrying amounts of its tangible assets to determine whether there is any indication based on internal/ external factors that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in the statement of profit and loss.

3.9 Provision

Provisions are recognized when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

3.10 Cash and cash equivalents (for the purpose of Cash Flow Statement)

Cash and cash equivalents in Cash Flow Statement comprise cash at bank and in hand and short term investments with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

3.11 Segment Reporting

The Company is primarily engaged in the trading business, hence, there is one primary segment in context of Ind AS 108 'Operating Segments'.

3.12 Earnings per share

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares.

Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of common shares outstanding during the period.

Diluted EPS is determined by adjusting the profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding, for the effects of all dilutive potential equity shares. For the purposes of calculating basic EPS, shares allotted to ESOP trust pursuant to employee share based payment plan are not included in the shares outstanding till the employees have exercised their rights to obtain shares after fulfilling the requisite vesting conditions. Till such time, the shares are allotted are considered as dilutive potential equity shares for the purposes of calculating diluted EPS.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease earning per share from continuing operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented.

3.13 Operating cycle

Based on the nature of services provided by the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

3.14 Use of estimates

The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

3.15 Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

3.16 Financial Instrument

Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

Subsequent measurement

a. Non-derivative financial instruments

(i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

(iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(v) Investment in subsidiaries

Investment in subsidiaries is carried at cost in the separate financial statements.

b. Derivative financial instruments

The Company has not entered or holds any derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures.

c. Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of company after deducting all of its liabilities. Equity instruments are recognized at the proceeds received, net of direct issue costs.

d. Compound financial instruments

The component parts of compound financial instruments (convertible instrument) issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recognized as a liability on an amortized cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound financial instrument as a whole. This is recognized and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognized in equity will be transferred to other component of equity. When the conversion option remains unexercised at the maturity date of the convertible note, the balance recognized in equity will be transferred to retained earnings. No gain or loss is recognized in profit or loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible instrument are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognized directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortized over the lives of the convertible instrument using the effective interest method.

3.17 Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations discharged, cancelled or have expired. An exchange between with a lender of debt instruments substantially different terms is accounted for as an extinguishment of the original financial liability the recognition of a new financial liability. Similarly, a substantial modification of the terms of existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a financial liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in the statement of profit and loss.

4) Exemption availed on first time adoption of IND-AS

(a) Deemed cost for property, plant and equipment and intangible assets

The Company has elected to continue with the carrying value of all of its PPE and intangible assets recognized as of April 1, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

6) Financial Instruments

i) Capital Management

The Company manages its capital to ensure that the company will be able to continue as going concerns while maximizing the return to stakeholders through the optimization of the debt and equity balance.

The capital structure of the Company consists of net debt (borrowings as detailed in notes 6 (offset by cash and bank balances) and total equity of the company. The company is not subject to any externally imposed capital requirements.

The Company's Board reviews the capital structure of the Company on need basis. As part of this review, the Board considers the cost of capital and the risks associated with each class of capital. The gearing ratio at March 31, 2018 is:

JYOTIRGAMYA ENTERPRISES LIMITED

(c) Other financial liabilities	64,58,146	59,93,000

a) Interest rate risk management

The company is not exposed to interest rate risk because company borrow funds at fixed interest rates.

b) Credit risk management

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in financial loss to the Company. The company takes due care while extending any credit as per the approval matrix approved by ECRM.

c) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the company's short-term, medium-term and long-term funding and liquidity management requirements. The company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. Note given below sets out details of additional undrawn facilities that the company has at its disposal to further reduce liquidity risk.

Liquidity and interest risk tables

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the company can be required to pay.

The tables include both interest and principal cash flows.

The contractual maturity is based on the earliest date on which the company may be required to pay.
